

In Lab Tasks Programming Fundamentals

Name: Amna Khan

Roll No: 26K-3091

Section: BSE-1C

TASK 01:

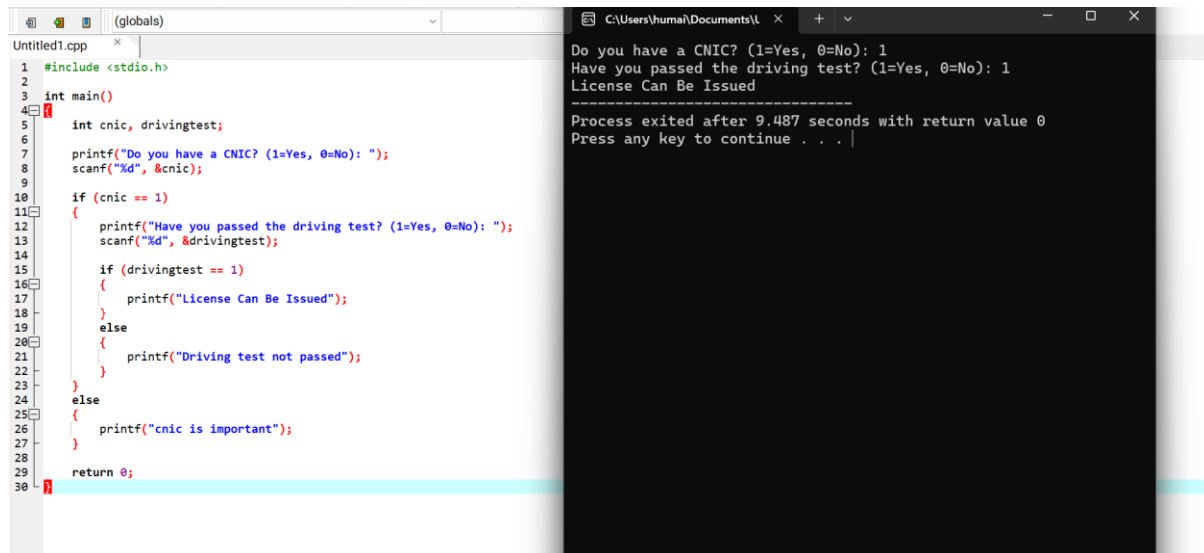

The screenshot shows a C++ IDE with a file named 'Untitled1.cpp' and a terminal window. The code in the IDE is as follows:

```
1 #include <stdio.h>
2
3 int main()
4 {
5     int age, marks;
6
7     printf("Enter your age: ");
8     scanf("%d", &age);
9
10    printf("Enter your marks: ");
11    scanf("%d", &marks);
12
13    if (age >= 18)
14    {
15        if (marks >= 50)
16        {
17            printf("Eligible for Admission");
18        }
19        else
20        {
21            printf("Marks are below 50");
22        }
23    }
24    else
25    {
26        printf("Age is below 18");
27    }
28
29    return 0;
30 }
```

The terminal window shows the output of the program:

```
Enter your age: 18
Enter your marks: 50
Eligible for Admission
-----
Process exited after 14.38 seconds with return value 0
Press any key to continue . . . |
```

TASK 02:

The screenshot shows a C++ IDE with a file named 'Untitled1.cpp' and a terminal window. The code in the IDE is as follows:

```
1 #include <stdio.h>
2
3 int main()
4 {
5     int cnic, drivingtest;
6
7     printf("Do you have a CNIC? (1=Yes, 0=No): ");
8     scanf("%d", &cnic);
9
10    if (cnic == 1)
11    {
12        printf("Have you passed the driving test? (1=Yes, 0=No): ");
13        scanf("%d", &drivingtest);
14
15        if (drivingtest == 1)
16        {
17            printf("License Can Be Issued");
18        }
19        else
20        {
21            printf("Driving test not passed");
22        }
23    }
24    else
25    {
26        printf("cnic is important");
27    }
28
29    return 0;
30 }
```

The terminal window shows the output of the program:

```
Do you have a CNIC? (1=Yes, 0=No): 1
Have you passed the driving test? (1=Yes, 0=No): 1
License Can Be Issued
-----
Process exited after 9.487 seconds with return value 0
Press any key to continue . . . |
```

TASK 03:

```

Jntitled1.cpp
1  #include <stdio.h>
2
3  int main()
4  {
5      int dept, section;
6
7      printf("Select Department:\n");
8      printf("1. Computer Science\n");
9      printf("2. Information Technology\n");
10     printf("3. Artificial Intelligence\n");
11     printf("Enter choice: ");
12     scanf("%d", &dept);
13
14     switch (dept)
15     {
16     case 1:
17         printf("Department: Computer Science\n");
18
19         printf("Select Section:\n");
20         printf("1. Section A\n");
21         printf("2. Section B\n");
22         scanf("%d", &section);
23
24         switch (section)
25         {
26         case 1:
27             printf("Section: A");
28             break;
29
30         case 2:
31             printf("Section: B");
32             break;
33
34         default:
35             printf("Invalid Section");
36         }
37         break;
38
39     case 2:
40         printf("Department: Information Technology\n");
41         printf("Select Section:\n");
42

```

```

ntitled1.cpp
5         }
6         break;
7
8     case 2:
9         printf("Department: Information Technology\n");
10
11         printf("Select Section:\n");
12         printf("1. Section A\n");
13         printf("2. Section B\n");
14         scanf("%d", &section);
15
16         switch (section)
17         {
18         case 1:
19             printf("Section: A");
20             break;
21
22         case 2:
23             printf("Section: B");
24             break;
25
26         default:
27             printf("Invalid Section");
28         }
29         break;
30
31     case 3:
32         printf("Department: Artificial Intelligence\n");
33
34         printf("Select Section:\n");
35         printf("1. Section A\n");
36         printf("2. Section B\n");
37         scanf("%d", &section);
38
39         switch (section)
40         {

```

```
40 printf("Department: Information Technology\n");
41
42 printf("Select Section:\n");
43 printf("1. Section A\n");
44 printf("2. Section B\n");
45 scanf("%d", &section);
46
47 switch (section)
48 {
49     case 1:
50         printf("Section: A");
51         break;
52
53     case 2:
54         printf("Section: B");
55         break;
56
57     default:
58         printf("Invalid Section");
59         break;
60
61
62 case 3:
63     printf("Department: Artificial Intelligence\n");
64
65     printf("Select Section:\n");
66     printf("1. Section A\n");
67     printf("2. Section B\n");
68     scanf("%d", &section);
69
70     switch (section)
71     {
72         case 1:
73             printf("Section: A");
74             break;
75
76         case 2:
77             printf("Section: B");

79
80         default:
81             printf("Invalid Section");
82             break;
83
84     }
85
86     default:
87         printf("Invalid Department");
```

Select Department:
1. Computer Science
2. Information Technology
3. Artificial Intelligence
Enter choice: 3
Department: Artificial Intelligence
Select Section:
1. Section A
2. Section B
Section: B

Process exited after 14.23 seconds with return value 0
Press any key to continue . . .

TASK 04:

```
1 #include <stdio.h>
2
3 int main()
4 {
5     int marks;
6
7     printf("Enter marks: ");
8     scanf("%d", &marks);
9
10    (marks >= 50) ? printf("Pass") : printf("Fail");
11
12    return 0;
13 }
```

Enter marks: 60
Pass

Process exited after 16.58 seconds with return value 0
Press any key to continue . . .
